

Getting Started Downloading eBooks

You can download thousands of e-Books, audiobooks and videos from the library onto your computer, laptop or mobile device. Titles include bestsellers, popular fiction and non-fiction for adults, teens and children.

For further information please visit

www.downloadlibrary.ca.

For a complete list of compatible devices visit www.downloadlibrary.ca
-- > Supported eBook Devices

Required software and authorization

1. Before you are able to download library books to your Reader or mobile device you will need to install Adobe Digital Editions (ADE) software on your computer. To do this go to www.downloadlibrary.ca and look for "Software" on the lower right side of screen. Download Adobe Digital Editions
2. Open Adobe Digital Editions. You will be prompted to create an Adobe account and then to authorize your computer. Note: You MUST create an account or you will not be able to transfer eBooks from your computer to your Reader. You cannot download Overdrive eBooks directly to your Reader. You must first download to ADE and then transfer to Reader.
3. With ADE open, attach the Reader to your computer using a USB cord. You will be prompted to authorize your eBook Reader. Authorize your device.
4. On a PC, the Reader will show up if ADE is already open and might not show up if you connect the Reader first. On a Mac, the Reader may not show up if ADE is already open when the Reader is attached. To solve this problem attach the Reader and then open ADE. Your PC may require you to restart.

5. If downloading to a mobile device such as the iPhone, iPod touch, iPad or Android, you will need to set up ADE on your computer and then download the OverDrive Media Console app onto your device.

Searching for and downloading eBook titles

1. Minimize the ADE software and visit the downloadlibrary website at www.downloadlibrary.ca.
2. Using the downloadlibrary website you can search for titles in several ways: browse by format; browse by subject; entering title/keywords in the Search field. You can also search for titles directly from the WPL library catalogue.
3. When you find a title you want, select "Add to Cart". If the title is already checked out, you may request it by selecting "Place a Hold".
4. After you have added an available title to your cart, select "Proceed to Checkout". Login by entering your library card number and PIN # (usually the last 4 digits of your telephone number). Select the lending period (7, 14 or 21 days). Select "Confirm check out".
5. You may now download the title using the "Download" button located under the item. When asked "Do you want to open or save this file", select "Open". The title will automatically open in Adobe Digital Editions. If it doesn't automatically open, locate the downloaded file, which ends in ".acsm" double-click it and select Adobe Digital Editions to open it.

Transferring an eBook to your Reader

1. Click on the Library View (see  icon in upper left corner) within ADE. Titles you have downloaded are listed on the right.
2. Drag and drop the title you would like to transfer onto the eBook Reader icon below the Bookshelves (left side of screen). You will see the file copy to your Reader/device. The title has now been copied to your device.
3. On a PC, click “Safely Remove Hardware” icon on the lower right of your monitor. Then click the “Safely Remove USB Mass Storage Device” box. When you see “Safe to Remove Hardware”, you may detach your Reader from the computer. On a Mac, unmount/eject the Reader using the Finder before unplugging. Detach the Reader from your computer.

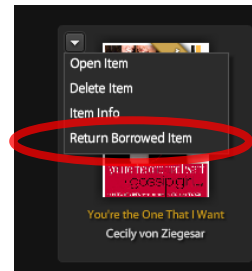

Viewing Available eBooks

1. Go to Advanced Search
2. Select the Format type you wish to search for.
3. Check box beside Only show items with copies available

Returning eBooks early

The license for an eBook expires automatically after the due date so it isn't necessary to “return” the eBook to the library. However, if you finish an eBook before the due date and would like to make the title available for someone else, it is easy to do.

1. Open Adobe Digital Editions.
2. Click on the arrow beside the title/image of the book you would like to return. A menu should appear.
3. Select Return Borrowed Item.

Having difficulties?

- Is your WPL library card up-to-date and do you know your PIN #?
- Is the device you are downloading to on the list of compatible devices (see the Supported eBook Devices link from the downloadlibrary.ca page)
- Visit downloadlibrary.ca → Help → Troubleshooting for a listing of error messages and solutions
