

WiFi Printing at WPL (Main Library)

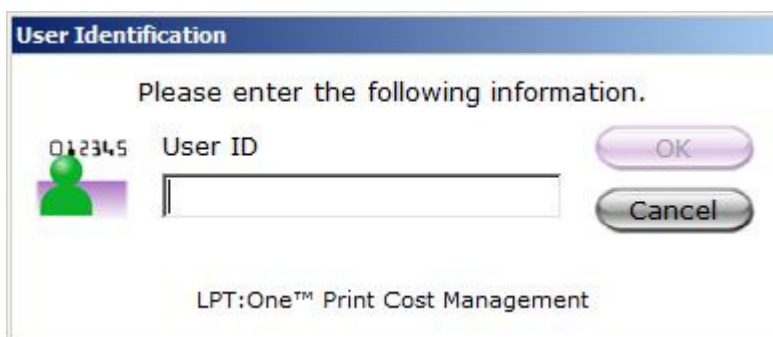

Step-by-step instructions

The LPT:One Print Client must be running in the background to print to our printers. When you no longer need to print, close it using these instructions.

1. Select the option to print.
2. Select either “Black & White Printer” or “Color Printer”, page range, and number of copies, and click Print or OK.

3. When prompted for User ID, enter an ID that you will remember so you can find your print job on the public print release station and click OK

4. Click OK to submit the print job.

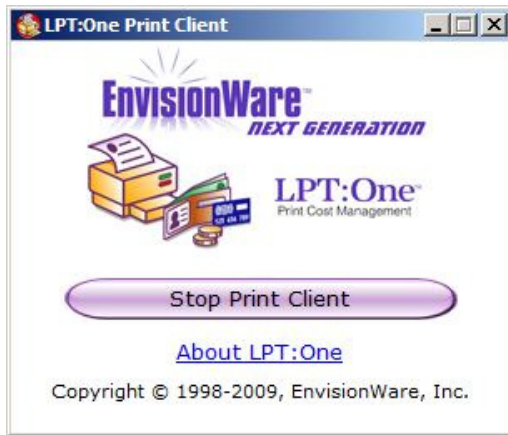

5. Click OK.

6. Go to the Print Release Station on the Main Level to pay for and print your job(s).

Closing the LPT:One Print Client

1. Open the LPT:One Print Client by clicking on the button in the taskbar

2. Click Stop Print Client.

The LPT:One Print Client closes, and restores your previous default printer.

When you shutdown or log off your computer, the LPT:One Print Client will automatically close.
